What Is Serviio?

Serviio is an online platform that connects people with professional service providers, like plumbers, electricians, cleaners, or painters, so they can get home or office services easily.

Why Serviio?

When I moved to Dhaka and rented a house, I faced many problems getting basic services. My electrician wasn't available, I needed a plumber to fix my washroom, and I wanted to paint some walls. It was very difficult to find reliable professionals. That's how Serviio came to be.

Serviio Features

01

Real-Time Service Provider Discovery:

Users instantly find nearby technicians using live GPS and smart distance filtering.

02

Smart Service Booking & Scheduling:

Instant bookings, scheduled appointments, and automated reminders.

03

In-App Messaging & Calling:

Direct communication for faster clarification and smoother service.

04

Emergency Fix (30–45 Min Service):

Urgent response for electrical sparks, pipe bursts, AC issues, and breakdowns.

05

Advanced Safety & Verification System:

ID verification, police verification form, technician 4-digit verification code, SOS panic button.

Serviio Features

06

Rating, Behavior Tracking & Service Review:

Detailed feedback system to maintain trust and service quality.

07

Favorite Technicians (Bookmark):

Users can save reliable technicians and rebook anytime.

08

One-Click Repeat Booking:

Quickly book a previous service without searching again.

09

Smart Notification System:

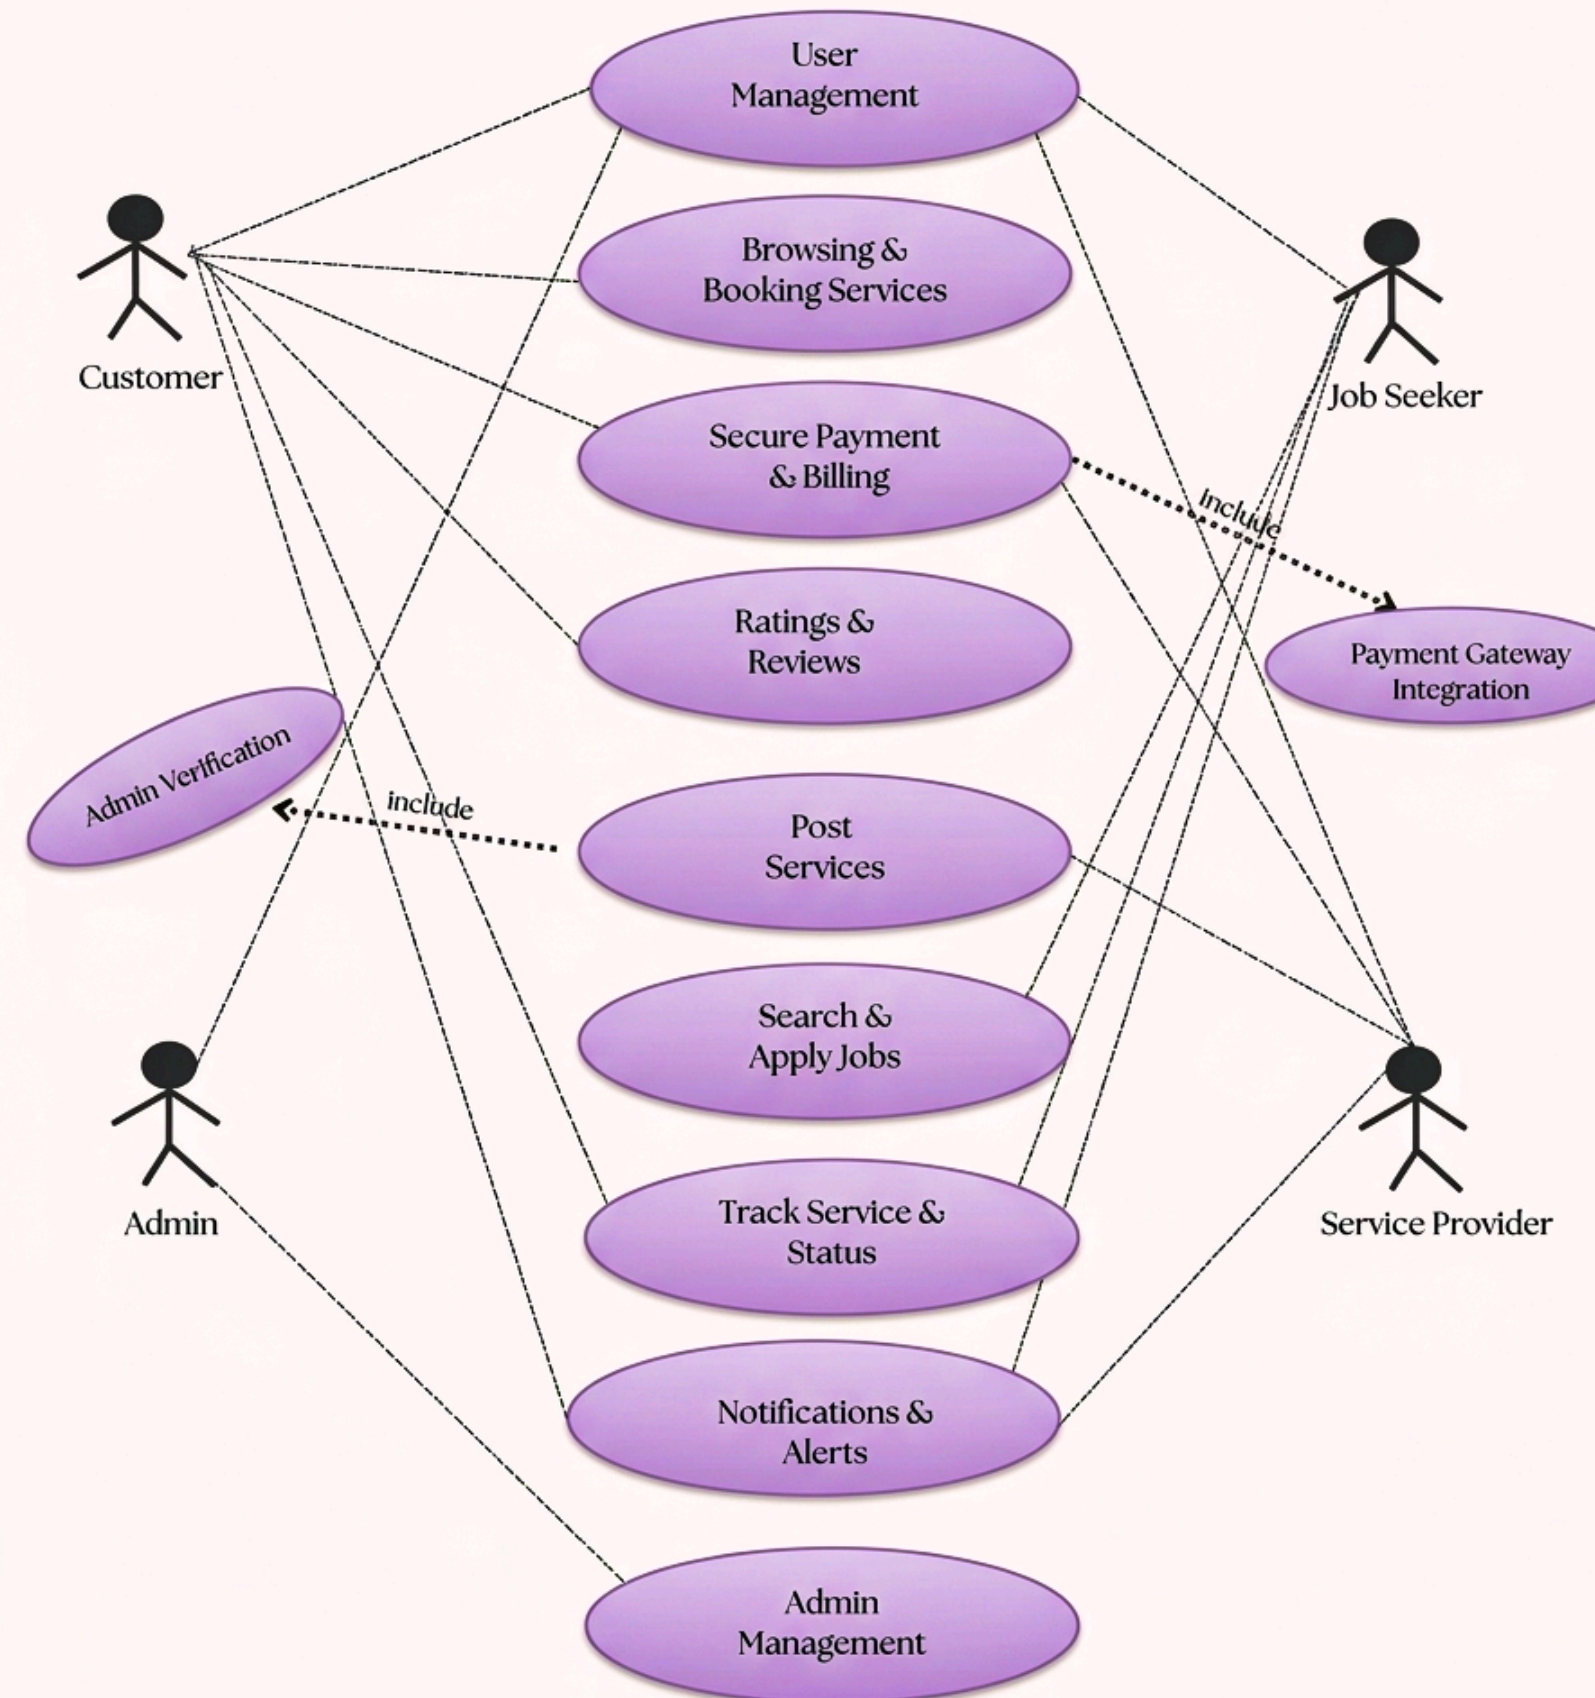

Push notifications for technician arrival, updates, offers, safety alerts.

10

Community Support Network (Facebook Assist System):

If no technician is nearby → request is posted to Serviio's Facebook Support Page. Available service providers can respond and take the job.
